RELIEF FOR THE SICK,

IT Dr. Rush's Infallible Benith Pills .-The great favor which this valuable medicine has gained during the few months it has been made known to the publie, has proved beyond all question its claim to superior efficacy in the alleviation and cure of the numerous complaints which are common to mankind. We assure those who are afflicted that they need but try a single box to be convinced that this is no humbug preparation-even were not the name of the immortal inventor a sufficient guarantee for its genuineness and merit. In all bilious and liver complaints, pleurisy, indigestion or costiveness, heartburn, piles seadache, erysipelas and other diseases of the skin, debility all complaints incident to females, the HEALTH PILLS have never yet failed to effect a cure. We are constantly receiving testimonials of the most extraordinary cures effected by this medicine. Read the following

CURE OF LIVER COMPLAINT. NEW-YORK, Nov. 6, 1842.

Sir-Injustice to the efficacacy of Dr. Rush's Infallible Health Pills, one box only of which I purchased from you, I deem it but right to inform you of their surprising effects in restoring me to health. For the last two months I was disabled from my em loyment, tried numerous advertised remedies, was treated in the General Hospital without any success, and finally adopted Dr. RUSH'S PILLS. Their effect was immediately evident-infusing vigor and health through my frame, relieving a constant pain in my side and leep oppression, promoting sleep, creating an appetite for food, and altogether invigorating a frame that was rapidly sinking into decay. I therefore deem it a duty I owe, not only to the public, but yourself, to publish the above testimony, which I have corroborated with a conscientious affidavit of the truth thereof. PATRICK GALLAGHER, Chariton-street, New-York Affirmed this 6 h day of December, 1942.

OVER-COATS! OVER-COATS!!-

fare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our admiration glow at the ingenuity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of Physiology, or the science of Life, and the Pathology of prevalent diseases, much valua-ble practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedie have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the cause of disease, and substitute healthy action in its place The beautiful simplicity of this mode of treatment is not only suggested by the pathology of diseases, not only grateful to the sufferer, but perfectly in consonance with the oper ations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is to us that SANDs's riswon. Swedish brig Gurte. Zethelius, 79 days from Stockholm, SarsaParilla, a scientific combination of essentia princip es of the most valuable vegetable substances, operates upor the system. The Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetakle kingdom; and its unprecedented success in the rest ration to health of those who had long pined under the most distressing chronic maladies, bas given it an exalted character, fornishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of mediine to obtain a remedy similar to this-one that would act on the liver, stomach and bowels with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system The attention of the reader is respectfully called to the following certificates. However great achievements have heretolore been made by the use of this invaluable medicine, ret daily experience shows results still more remarkable The proprietors bere avail the macives of the opportunity of saying it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering.

NEWARK, N. J. Dec. 13, 1842, Newsers, N. J. Dec. 13, 1842,

Messers, Sands: Gent-Werds cannot express the gratitude I feet for your freatment to me, a stranger suffering
under one of the most loathsome diseases that ma ure is capable of bearing. The disease with which I was afflicted immenced with inflammation of the eyes, in the year 1856 which caused amost total blindness. For this I was treated and finally relieved, but the remedies were such as to cause he developement of a scrotulous affection on my left arm

"The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were beyond discription, I tried various remedies and consulted different Physicians in New-York and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by he large quantity of mercury taken to cure the inflamma

non of my eyes.

My sufferings continued, the arm enlarged, tumour orused in different places, and in a tew months discharged, making ten running ulcers at one time, some above and some below the wibew, and the discharge was so offensive that no person could bear to be in the roots where I was that up person could bear to be in the roota where I was—
I then applied to another distinguissed Physician who told
me amputation of the arm was the only thing that could save
my lite, as it was impossible to cure so dreadinful disease; but
as I was unwitting to consent to it he recommended me to
use Swatin's Panaceo treely, which I did without deriving
but little benefit. "For three years I was unable to raise
my hand to my head or comb my hair, and the scriptial now
made its appearance on my head, destroying the bone in
different places, causing extensive dicerations at d I hared
it might reach and series the brain—the head swelled yery different places, causing extensive dicerations at d It ared it might reach and sestion the brain—the head swelled very much, accompanied with violent pain, numerous external remedies were recommended, but they did no good.— About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpless, the Doctor advised me to go to the Hospital, for he did not understand my case; for the list few months I had been afflicted with a severe pain in both sides, at times so hard I could scarcely get my breath. A backing cough constantly annoyed me, and this combined with my other maladies, rendered me truly miserable. Such, gentlemen, had been my situation for seven years of my lite when I commenced my situation for seven years of my life when I commenced the use of your Sarsapailla, but as my case was considered hopeless, and the near prospect of a speedy dissolution seemed inevitable, I felt but little encouragement to persevere. The persuasion of friends induced the to try your medicine, which in a few days produced a great change in medicine, which in a lew days produced a great change in my system generally, by causing an appetite, relieving the pains, and giving me strength; as success inspires confidence, I was encouraged to persevere, my pains grew easier, my strength returned, food relished, the ulcers healed, new desh formed, and I once isore telt within me that I might get well. I have now used the Sarsaparita about two months and am like a different being. The arm that was to be amputated has entirely healed, a thing that seemed min possible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health is better than it has been for years past. ias been for years past.

Health; what magic in the word! how many thousands

have sought it in foreign lands and sunny climes, and have sought to vain! Yet it came to me when I had given up to die, and as I feel the puisations of health coursing through my veins, my whole heart and soul go forth in lervent gratitude to the author of all our sure mercies, that he has been graciously pleased to bless the means made have of "Truly have you proved vonced the good ase of "Truly have you proved yourself the good Samaritan to the afflicted, for next to my Creator my life is indebted to you (or rather) the use of your invaluable Sarsu-parilla. The value of such a medicine is countless beyond price, money cannot pay for it. I have been raised from death, I may say, for my friends and myself thought it impossible I could recover. And now gentlemen suffer me to add another proof certified to by my friends and guardians as a just acknowledgement of the virtues of your health restoring Sarsaparilla. That the afflicted may also use it and mjoy the benefits it alone can confer, is the heartfelt, fervent

wish of their and your triend. MARTHA CONLIN. I know Martha Conlin and believe what she states in this decument to be perfectly true. JOHN POWER,

BROOKLYN, Nov. 25, 1842.

Messrs, Sands: Gest.—Although I am disfigured and deformed for life, I have not lost my recollection; and never, while I exist, shall I cease to feel grateful for benefits controlled. while 1 exist, shall I cease to reel grateful for beneats con-ferred, through the use of your invaluable Sarsaparilla. I was attacked in the year 1828 with a scrolulous affection on the end of my nose, commencing with a small red spot, at-tended with tiching and burning sensations. This induced rubbling, and now commenced the rayages of a disease which progressed as follows: the left nostril was first destroyed, and, continuing upwards, it crossed the bridge of the nose, and, seizing upon the right sid-, destroyed the cartilage, bone and nil the surrounding parts, until, finally the nose was entirely eaten off; the passage for conveying tears from the eye to the nose obligerated, which caused a continual flow of tears. The disease now seized upon the upper lip, extending to the right check, and my feelings and upper lip, extending to the right check, and my beelings and sufferings were such as can better be imagined than described. I am a native of Nottingham, in England, and my case is well known there. The first Physicians in the Kingdom prescribed for me, but with little benefit. At one time I was directed to take 63 drops of the "Tincture of Lodine" three times a day, which I continued for six months in succession, at anonaer time I applied Oil of Vitirol to the parts After this used a prescription of Sir Astley Cooper's, but all Attentiate used a prescription of Sir Astley Cooper's, but all proved in vain. I continued to grow worse, and as a drowning man will catch at a straw, I used every remedy I could hear of that was considered applicable to my case, until I became disgusted with the treatment, and relinquished all hone of exercises.

I became dispassed with the treatment, and reiniquisated an hope of ever getting well.

Many pronounced the disease a Cancer, but Dr. M—, under whose t eatment I was, considered it Scroulous Lupus, and this is the name given it by medical men. As a last resort I was recommended to try change of air and an Atlantic voyage, and in April last I sailed for America, and arrived here in the month of May. The disease continued gracually to increase, extending upwards and backwards, having destroyed the entire nose, and fast verging towards the frontal sone, it seized upon the upper jaw and surroungling parts. ounding parts.

while crossing on the Ferry-boat from Brooklyn to New-Yora, a gentleman was attracted by my appearance and thus accusted me: "My friend, have you used the Sarsapa-rilla?" Yes, repited I, various kinds, and every thing else I could hear of; but, said he, "I mean Sands's Sarsapa-rilla." No, I rep led. "Then use it, for I believe it will care you." Being thus addressed by a stranger I was in-duced to make trial of a medicine he so highly recom-recuted.

mented.

I purchased one bottle, which gave some relief, and wonderful to tell, after using your Sarssparilla less than two months, I feel within me well. The disease is stopped in its ravages, all those racking and tormenting pains are gone, my food relishes, my digestion is good, and I sleep well; and, under the blessing of Divine Providence, I attribute the result entirely to the use of Sands's Sarsaparilla.
